machines, under Cap. Lagrand. Sir Wm. Pelletier at Cavaporo of small pot, on the 7th of April. Sir Help Grant had returned to Lakewood.

Bombay market very active, with increased prices. Money market very tight. Exchange on London £1.

Documents from Candia state that the Greeks have risen against the authorities. The press is a tax for exemption from military service. Candia is threatened but reinforcements had arrived.

County Council.

[Reported for the Gold.]

FRIDAY, June 11th.
The Council met this forenoon at 11 o'clock, the Warden in the Chair.

ROADS AND BRIDGES.

The Warden laid on the table a communication from the County Clerk of Ontario, with an extract from the report of the Committee in reference to the Bridge over the Black River, and also a petition from H. Brothman & others, praying for a grant of money to construct a bridge over the eastern branch of said river. The matter was referred to the Committee.

The Standing Committee on Roads and Bridges presented their first report.

The Council, on motion of Mr. Wright, went into Committee of the Whole on the report—Mr. James in the Chair. After sitting a short time, the Committee rose, reported progress, and obtained leave to sit again.

INSPECTORS OF WEIGHTS AND MEASURES.

The Council went into Committee of the Whole on its Bill to appoint additional Inspectors of Weight and Measures—Mr. Starrett in the Chair.

After a short discussion, the Committee rose and reported progress.

On the motion of the reporter of the report, it was moved that the name of Hiram Pipe be struck out, and that the name of Eli G. Irvin be inserted, and also that the name of J. Smith be added—Carried.

The report as amended was then adopted.

ASSESSMENT REPORT, 1857.

On motion of Mr. Starrett, the Report of the Special Committee appointed to equalize the Assessments for the year 1857 was read. The Council then adjourned till this morning (Saturday) at 10 o'clock.

Mr. Cayley under Examination.

At last Mr. Inspector General Cayley appeared in the witness-box of the Public Accounts Committee yesterday morning. We publish in another column the result of his first day's examination, and we beg every reader to peruse it carefully. We promise him ample compensation for his trouble in following the long and learned gentleman through his windings and dodgings. We are under the impression that a more lamentable exhibition was never made of himself by a man in Mr. Cayley's position. Only think of his refusing to answer at once, and asking time to write out whether, as Inspector General, he had advanced £10,000 to the Cobourg Railway Co. from the public funds, though he was forced to admit that he had done so five minutes after! Only fancy his replying when asked where the money came from, that he would look at his books and see—though immediately after, it was dragged from his own lips, that the cash came from the Bank under the illegal and demoralizing Imprast Account system!—picture the Finance Minister of Canada replying that he could not tell if the Cobourg Railway Company was bankrupt, because he was not a "Stockholder" of it!—though the next moment he was forced to confess that he held at the very time £20,000 of bonds of the same Company! We defy the most violent partisan of the Ministry to rise from a perusal of Mr. Cayley's contemptible quibbles and evasions, without thorough contempt for a Government that has such a miserable specimen of mortality as its Financial Officer.

But Mr. Cayley appears in this examination in a new character. Spite of his evasions and subterfuges, he is come out that as Inspector General, but £10,000 of the public money to an bankrupt company, in which he was personally interested to the extent of £20,000—that the President of the said road, and afterward the lessee, was his own brother-in-law, Mr. D'Arcy Boulton; that Mr. Boulton's rent was to be paid in cash, but by a shrewd arrangement, he paid it in depreciated bonds instead of cash—and that £20,000 of those bonds, though hardly saleable in the market, came from Mr. Cayley himself. And we are not yet at the bottom of this Cobourg bond transaction.

Mr. Cayley's examination has only commenced, and if a quorum of the Committee can be obtained, and Mr. Cayley continues to meet the ordeal, we shall doubtless have from him more valuable information as to the state of the finances and his mode of administering them. It was, however, a bad omen to see him passing, at the close of the examination yesterday, that the Committee adjourn for three days—or until Thursday next. He did not obtain his end, but he got his own further examination adjourned to Thursday.—*Globe*

By Telegraph.

Arrival of the Arago.

New York, June 15th.
The steamship *Arago* arrived at noon yesterday, with London dates of the 2nd instant. Her news mostly embraced in the accounts *pro Nova Scotian*, via Cape Race, but there are some items of interest.

The Atlantic Telegraph fleet was expected to return to Plymouth on the 4th, previous to the final departure to lay the cable.

Reinforcements are to be sent to Canton. The British Minister at Florence had suddenly and unexpectedly returned to England.

Schaumburg was collecting troops.

A violent collision had occurred between the Circassians and Russians—500 of the latter killed.

In addition to the statements from Cape Race on the subject, Mr. Fitzgerald said her Majesty's Government had signified to the Government of the United States, that they were ready to adopt such measures as the latter might suggest to meet the difficulty that slaves almost invariably hold the American flag.

LIVERPOOL MARKETS.

Liverpool, Wednesday Morning.
Cotton Sales for the past few days foot up only 11,000 bales, and it is difficult to make sales without a reduction of 1-6d. a 18th per pound, as compared with the rates current at the sailing of the *Arago*. Speculators have taken only 1000 bales, and exporters about the same quantity. The advices from Manchester are quite favourable, and prices generally lower. Messrs. Richardson, Space and Co. report the prospects favourable for the growing crops, which general to deposit.

NEW ADVERTISEMENTS.

A FREE LECTURE.

MR. CRISWOLD

PROPOSES to give a Free Lecture upon the Physiology of the Heart, and also the effects of his celebrated

RESTORATIVE

in curing the Headache, preventing the loss of sleep, &c., and promoting the growth of the same, in the

UNION'S ROOM

On Monday Evening, June 21st, 1858.

Amusement.

Miscellaneous Advertisements.

Mill Privilege and Saw Mill, FOR SALE!

For Sale, a Saw Mill and first-rate site for GRIST MILL.

WITH 23 feet head and on a good stream. There are few better situations. The Mill is in the town—the Mill is in the rear of the town, so no mill is the East for many miles. The Saw Mill has 16½ feet head; and the saws are set to cut from 1000 to 1200 logs per year.

This property is beautifully situated on Lot No. 15, in the 3rd Con. of Whitby, and will be sold at a bargain. The Mill Site property covers an area of about 12 acres.

For further particulars, apply to Mr. E. Jackson Newmarket; Messrs. Astell & Mitchell, Aurora; or the undersigned on the premises, (if by letter, postpaid,) at the Aurora Post Office.

J. R. LLOYD.

Whitchurch, Sept. 26, 1857.

16-30

A man sentenced to be hung was visited by his wife, who said: "My dear, would you like to see my children?" "Yes, I would," replied he. "That's just like you, and I have never wanted the children to have any enjoyment."

Well, father, you told us your woods were a good place for hunting. Now we're satisfied through it for three hours, and found no game. Just so! well I calculate, as general thing, the less game there is, the more hunting you have."

Dr. Ryerson's Case.

NOTWITHSTANDING the judgment taken before the Committee of Public Accounts yesterday, is very short, having significant Mr. Milroy, the agent of the Bank of Montreal, was the only witness examined. The following are the questions and answers:

Q.—When did Dr. Ryerson make deposits with the Bank of Montreal, and what was the amount?

A.—The first deposit was made of £2,000, Sept. 1850; on the 2nd of Oct., £1,175 was deposited. These amounts remained in the Bank intact until December, during which time the whole amount, with the exception of £13,194. 11d. was withdrawn by Dr. Ryerson's clerks. In January, 1851, £1,166 was deposited, leaving a balance at the end of that month of £186. In Feb., was deposited £241, leaving a balance at the end of that month of £181. During March deposits of £215, leaving a balance of £920, at which time the interest upon the daily balances ceased. The amount of £200 was credited to Dr. Ryerson's account, being the interest on the daily balances from 2nd Sept. till 31st March.

Q.—Have you any means of knowing whether the funds stated were public or private?

A.—I have not. The whole amount was kept in Dr. Ryerson's own name.

It will be seen that this evidence directly contradicts that of Dr. Ryerson. The Superintendent stated that he had never received any interests on public deposits from the Bank of Montreal, while Mr. Milroy says that Dr. Ryerson received £29,500. The interest on the daily balances of all deposits, some of which, the Superintendent admitted, were public moneys. A worse contradiction results, however. Dr. Ryerson stated that the £2,000, was deposited in the Bank of Montreal for the convenience of paying persons of various places where the Bank of Upper Canada had no agencies, and because Mr. Stephenson, of the Bank of Montreal, was agent for some of the Municipalities. Mr. Milroy states the fact in conclusive contradiction of this allegation, that the £2,000, was not paid out through agencies or to municipalities at all, but was withdrawn with another deposit, in one sum in December following.

The latter fact bears out the statement commonly made that Dr. Ryerson was the habit of drawing money from the Bank of Upper Canada, keeping it at interest elsewhere, and returning it when he had to make up his balances. We have no wish to bear with unnecessary severity upon the Superintendent, but his actions are all in his favor, as have frequently shown. We cannot, however, pass over such facts. Did Dr. Ryerson speak falsehoods or truth before the Committee to these deposits in the Bank of Montreal? We shall be glad if he can afford an explanation.

Of course if the Superintendent thought he had a right to make use of the public deposits as he pleased, as he says he did, he may have realized much larger sums than we know anything about, and these ought to be the most searching enquiry into the facts. If the committee of public accounts cannot conduct the examination, Mr. Langton should.—*Globe*.More Concupis.—Statements in reference to the seal of offices reach us daily, and are forced to the conclusion that such transactions as that of Mercer and Hapell have been very common and ordinary events under the eye of the coalition. One of the cases in that of the postmaster of Windsor. Mr. Rankin was appointed to this post, through Mr. Rankin's influence; he was a resident of Pittsburgh at the time, and not thinking it necessary to remove, had the duties performed by deputy. The Government objected to this, and his deputy, Mr. Wagner, offered to give him £125 for the place. After accepting, Rankin was agreeable, the Government made things pleasant, and Wagner was appointed. As a matter of course the Government cannot take up such cases and investigate them, when they defeat Mr. Mercer's purpose. We may expect to see the practice established henceforth under all the authority of the Executive and Legislative, and Government offices become as much articles of sale as butter and cheese. What a delightful condition we are coming to! How fast we progress in this Canada—backwards! Finally, what a charming Government we have to the Coalition!—*Globe*.The SILVER COINAGE.—We have been told by several of the organs that the new silver coinage, for Canada, might be expected from England almost immediately. A private letter from London, however, states that, although some correspondence has taken place between the Governor General and the Master of the Mint up to the 20th of May no definite instructions had been given, or anything decided upon. The same letter states that the Canadian Ministry are injuring themselves greatly in public estimation in England by the undignified manner in which they are clinging to office. The public now there think that they should have resigned when *Cailey*, Spence and Morrison were first defeated.—*Globe*.The Two INDEPENDENTS.—W. Macdonald, Esq., M. P. P., for North Oxford, took advantage upon realizing his maiden speech in the House, to say he was entirely independent of George Brown. And Ogle, R. (in plain English, the *opting rogue*) the very night he took his seat for L. d., declaring that he was independent of the present ministry. We see better off than we thought we were, now that we know we have two independent men in the House. But—Who would have thought it!

Grubblers.
